

# CASE STUDY - MONITISE CREATE

**PROJECT:** Monitise Create, Medius House, London  
**DURATION:** 10 weeks  
**SIZE:** 15,000 Square feet  
**OCCUPANCY:** Office

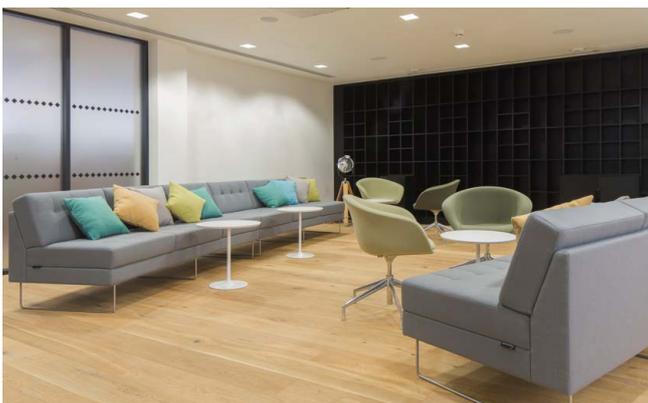

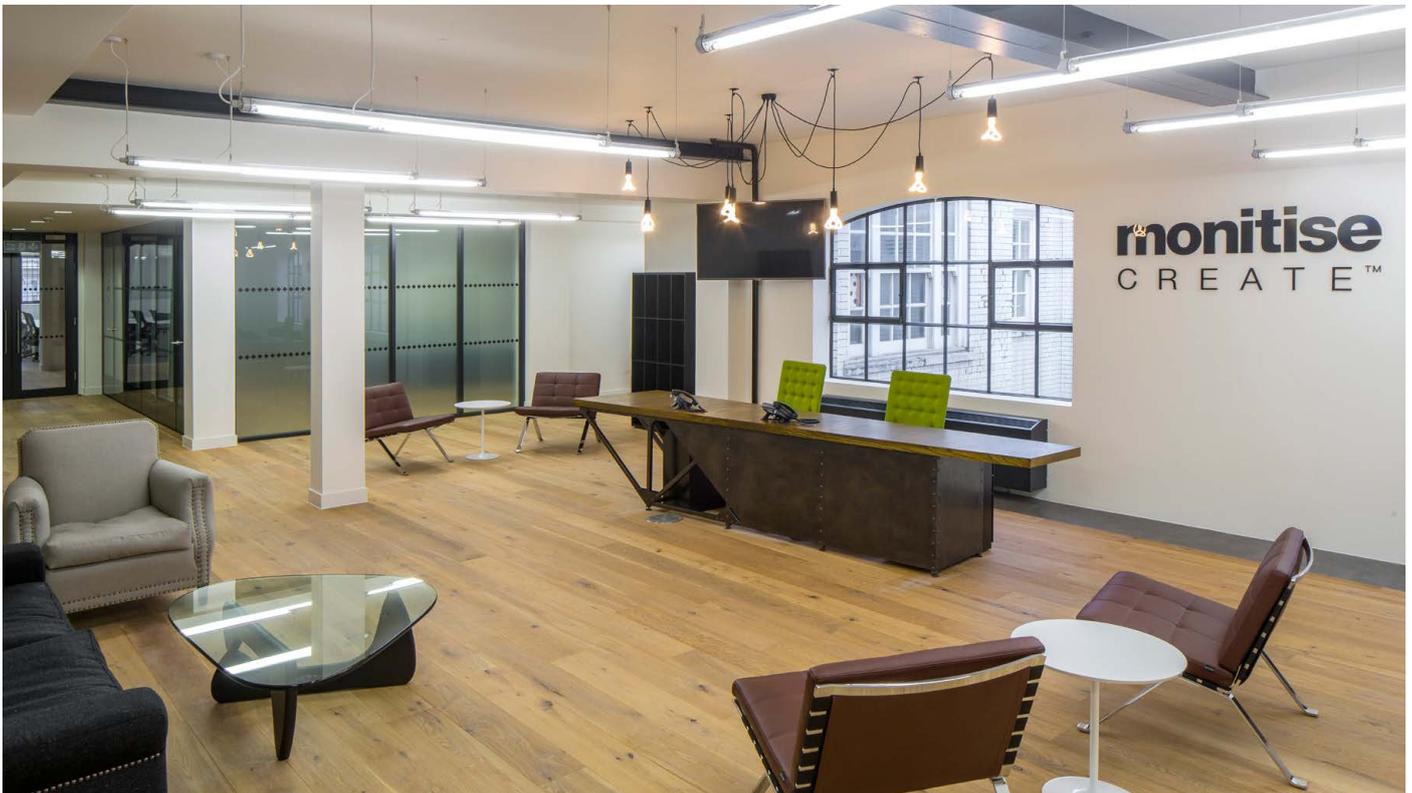

Our brief for Monitise Create was to provide a 'San Francisco Loft' styled office for the creative arm of Monitise Group Ltd. Medius House already contained sand blasted brick, plasterboard ceilings and up and down lighting pendants which meant that much of the standard specification supported the brief.

The design was carefully managed to ensure the strong aesthetic brief was not compromised by the technical requirements of the building. Solid Oiled Oak planks and cushion backed vinyl flooring has been specified with inset rugs; black framed glazed partitions, feature pendant lighting and a carefully selected furniture package have completed the loft effect.

*"We gave TWC a tight brief and they managed to co-ordinate both the expectations of our business and those of our head office. We are extremely happy with the overall result and with the prospect of working in our new office."*

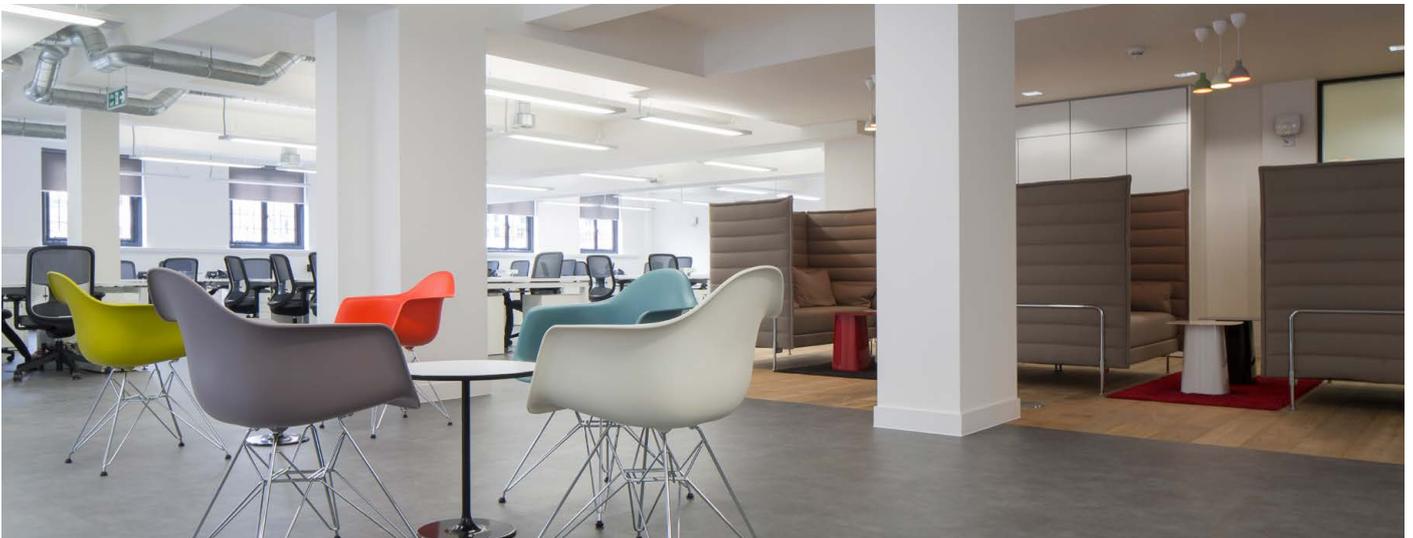

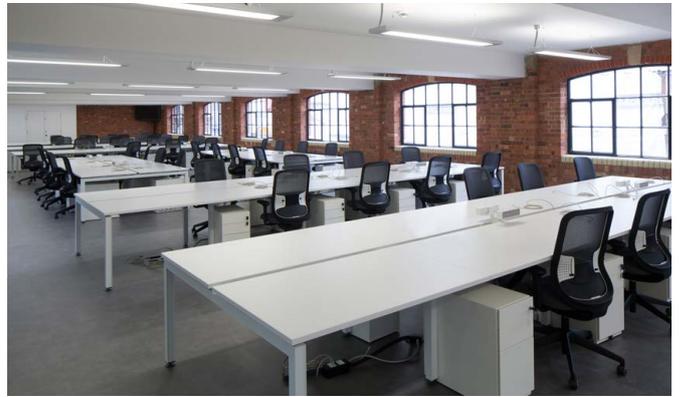

*Jack Bekhor, Founder Monitise Create*

# CASE STUDY - MONITISE CREATE

**PROJECT:** Monitise Create, Medius House, London  
**DURATION:** 10 weeks  
**SIZE:** 15,000 Square feet  
**OCCUPANCY:** Office

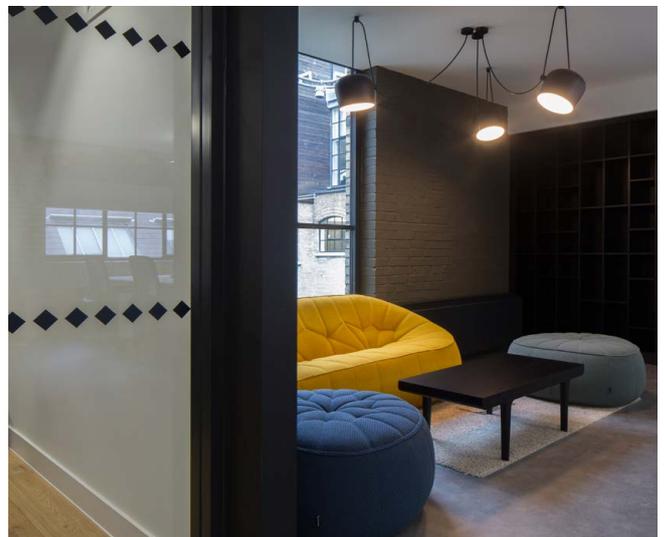

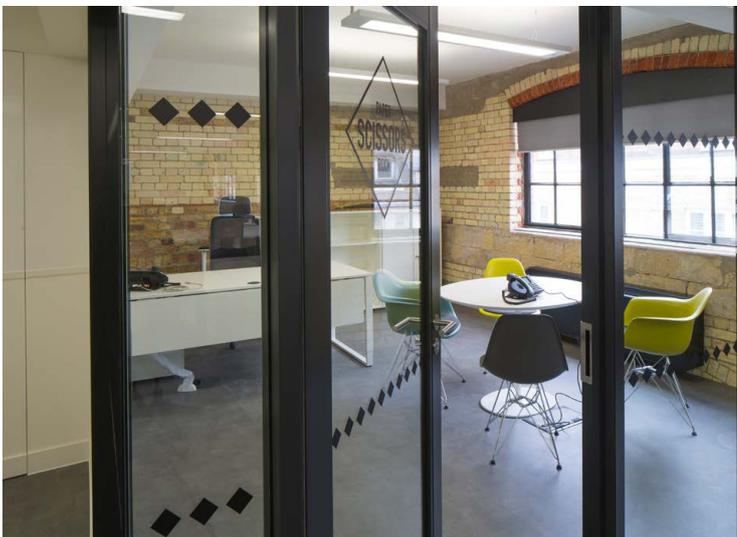

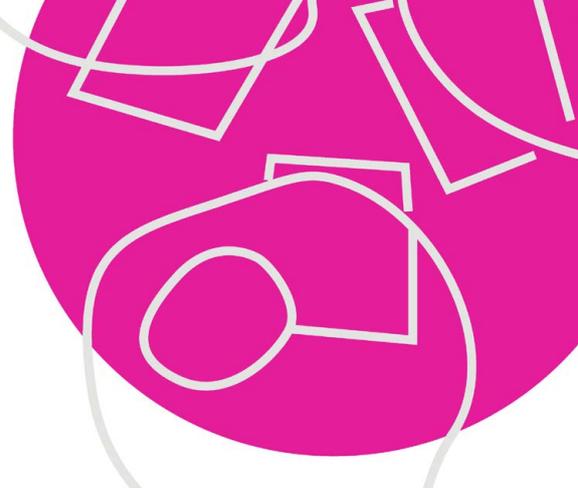

The design for the office areas was very carefully balanced to include maximum density open plan with significant quantities of informal meeting areas - 85sqft/person. The informal meeting areas are supported by feature lighting, bookshelves and white boards but also provide creative intrigue with 'Lego' and 'record' tables.

A large breakout area has been designed to include a games area as well as cafe and lounge style seating.

*"I found working with Workspace a very positive experience, the additional support with regard to design decisions enabled the process to move quickly and successfully forward"*

**Daniele Bottos, Bluu Senior Designer**

## CASE STUDY - MONITISE CREATE

**PROJECT:** Monitise Create, Medius House, London  
**DURATION:** 10 weeks  
**SIZE:** 15,000 Square feet  
**OCCUPANCY:** Office

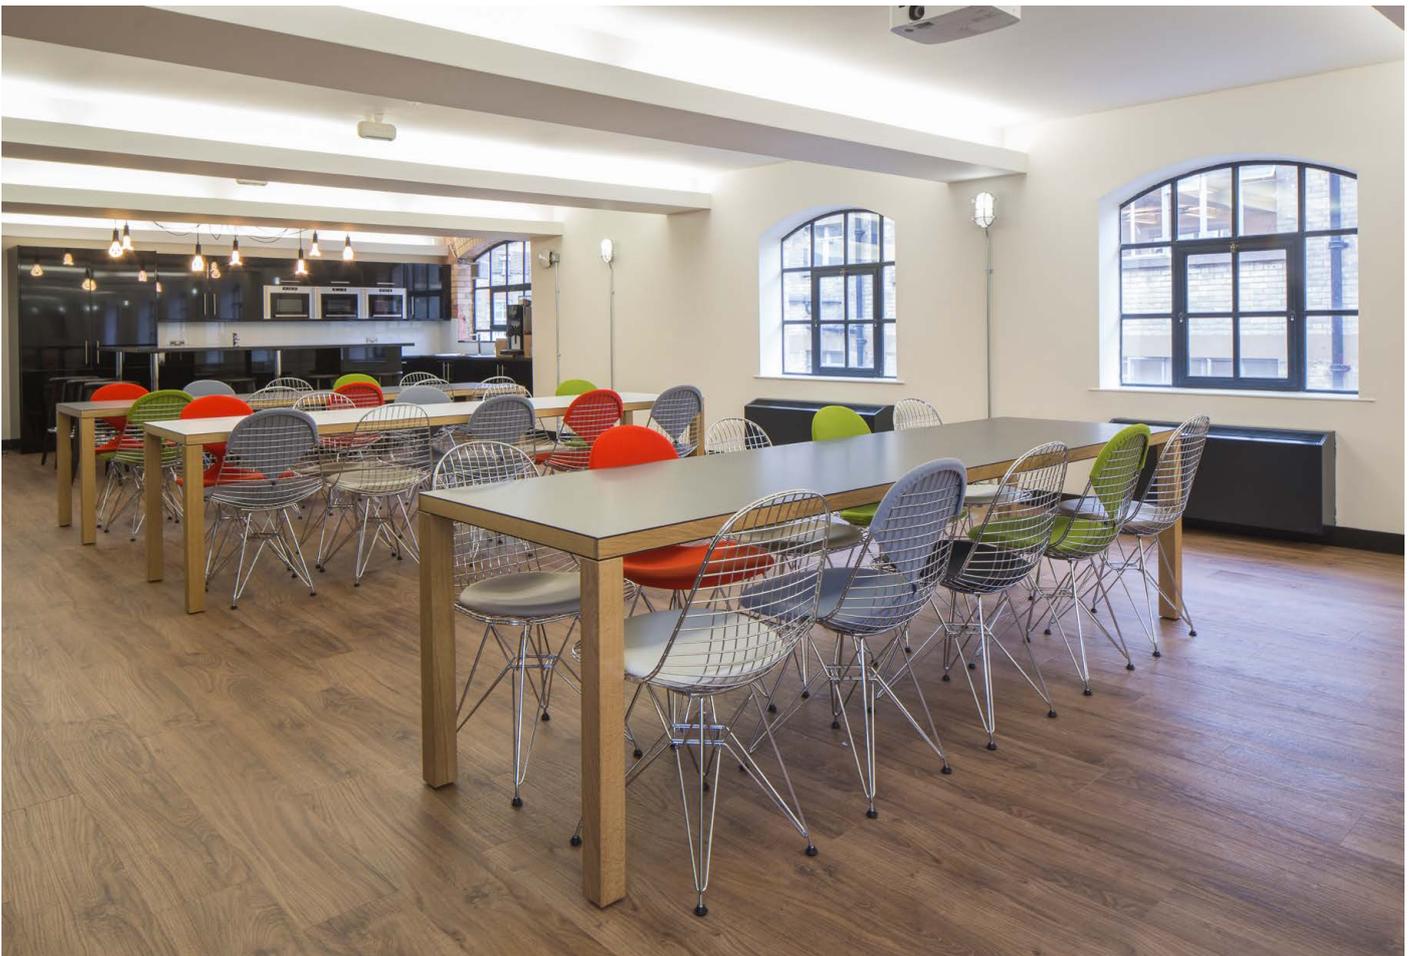

Medius House was undergoing a significant CAT A refurbishment when the lease was agreed. Having produced the agreed layouts and headline budget for the CAT B fit out we worked with the landlord's fit out contractor - Bluu, to develop the design and negotiate the fit out contract.

We were able to save time and cost by amalgamating the CAT A and B elements of work. The CAT A elements of work were taken over by Monitise and costs were recovered by way of a landlord contribution.

We supported the legal processes with detailed contract documentation and managed the valuations carefully to separate the CAT A and CAT B works. This enabled the landlord contributions to flow accurately into the project.

Time was a huge consideration and the works were completed on plan and to budget.

*"The Medius house project was extremely demanding in terms of the time scales and this needed to be achieved whilst ensuring that the work delivered an environment suitable for an extremely creative business. This was achieved in no small part due to the design input and project control provided by Carol Chinn and Mike Bird from the Workspace Consultants. Working with them guaranteed that the project was delivered on time and within budget and I am delighted with the outcome.*  
**John Wilson, Monitise Programme Manager**
